Birthdays

Joke corner:

I wanted to thank you all for your support and for not giving up on me. I still struggle and have bad days but I hope going to university will give me the opportunity for a fresh start.

Thank you so much for everything you did for us! We are very grateful... You are the best team and you look after your students exceptionally well! We feel lucky as parents that our son in his most difficult period of his life, he felt like a normal child of his age with your help. He lost two years of his mainstream school because of his health problems and you succeeded to bring him back to the level of his other mates so he could go back when he was ready. Honestly he has the best memories of you all and you taught him so much!

Puzzle Corner

Riddle: My voice rises above the din,
Sometimes catching all unaware.
I never ask questions,
yet get many answers.

Anna Langford has some spider plant and tradescantia cuttings on the go and plans to bring them in to Canterbury and Leybourne after Christmas. Anna has pots but **needs containers** for them. If you have any that you no longer want can you bring them in, please. If people have Christmas poinsettias and are not planning to keep the containers, they would be great.
